

Golden Care Dental Services

A Message from our Founder & Director,

At Golden Care Dental Services we have expanded the traditional definition of dental care.

Our mandate is to meet the unique needs of those who cannot provide for themselves. With this in mind, we have adopted 3 fundamentals that have combined to make Golden Care Dental Services a resounding success.

Firstly, we have dispelled a myth - aging alone need no longer be associated with the loss of teeth. Secondly, we have proven that access to care is no longer an obstacle to receiving necessary dental treatment. Thirdly, our expanding knowledge in the field of life sciences and dental materials allows us to provide dental treatment options never before available.

You, the families and decision makers, have both a higher awareness and higher expectations in the field of dental care.

My promise to you is to ensure that Golden Care Dental Services responds to these expectations philosophically and clinically.

This directly translates into improving the quality of life of those entrusted to our care.

Dr. Martin Kushner, DDS MAGD
Founder and Director, Golden Care Dental Services
